We are committed to ensuring that all children are protected and kept safe from harm whilst engaged in any services organised and provided by “the Company”. “the Company” is committed to ensuring safeguarding practice reflects statutory responsibilities, government guidance and complies with best practice and local authority requirements.

Procedures

All efforts should be made to ensure that children are collected on time from any “Company” activity. Where possible parents/carers should be encouraged that if they are going to be late, they should contact the appropriate lead coach or the organiser of the activity to let them know.

If a child has not been collected on time the following procedure should be followed:

- The member of staff responsible (coach or activity leader) should wait with the child.
- The staff member should contact the parent to find out the situation. If the contact number given does not get a response any other number given should be contacted.
- If contact is made, arrangements should be made for the child to be collected as soon as possible by the parent/carer or another named suitable adult.

- If there is no response from any number and the parent/carer has still not arrived the numbers should be tried again at regular intervals.

The child must not be left on their own or in the company of another child.

It is the responsibility of the lead coach or lead member of staff to remain with them until the situation is resolved. Wherever possible the staff member left with the child should have a DBS check.

- If there are other activities on site, the child should be kept on site and ongoing efforts should be made to contact parent/carers.
- If there is still no response after 30mins and the facility site is due to close the member of staff on duty should contact the Safeguarding team and explain the situation.
